

PFERD Innovations 2010

For more information on these PFERD innovations, contact your local Central Welding Supply or Pacific Welding Supplies branch.

NEW

POLIFAN®-CURVE Flap Discs

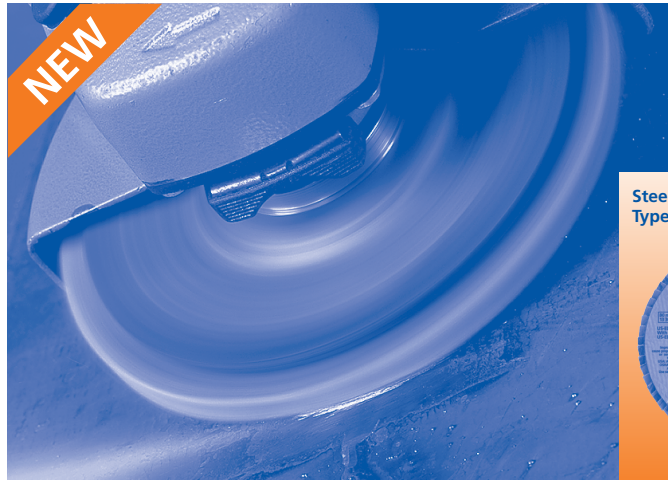

POLIFAN®-CURVE is a new PFERD innovation designed to quickly achieve a smooth, consistent surface finish on fillet welds. The unique radial construction shape offers a superior solution for this common task.

- Precise grinding of fillet welds provides a superior surface finish.
- Tough and aggressive - removes scale and bead from all metals: steel, stainless and alloys.
- Works faster than grinding wheels without the risk of undercutting the workpiece.
- Excellent tool life, including the radius edge of the disc.
- Multipurpose – may be used as a conventional flap disc, and for underhand applications using the top of the disc.

Steel, stainless steel (INOX)
Type SGP-ZIRKON-CURVE

NEW

POLIFAN® PSF-EXTRA Flap Discs

POLIFAN® PSF-EXTRA flap discs feature a special high-density flap arrangement to provide flexibility and a cushioned grinding effect. Built with premium Zirconia abrasive material, the POLIFAN® PSF-EXTRA flap discs provide a long service life and an improved surface finish.

- 40% more coated material than standard POLIFAN® PSF flap discs.
- Thick, high-density flap disc design for a soft, flexible grinding action.
- Combination of flap quantity and quality yields extended service life.

Steel, stainless steel (INOX)
Type PSF-ZIRCON-EXTRA
