

Enhance Your Cutting Productivity With your Trailblazer® and Bobcat™ Generators

Miller Spectrum Plasma Cutters offer:

- Fast metal cutting speeds
- Solutions for cutting Stainless, Aluminum and other electively conductive metals
- Gouging capability
- No need for dangerous gas or fuel, Miller Plasma Cutters use compressed air.

NEW!

Spectrum® 625 X-TREME™

- Cuts up to 5/8" mild steel on 11,000 watts
- Only weighs 21 lbs
- Utilizes compressed air 6 CFM @ 90 psi min

Spectrum® 375 X-TREME™

- Cuts up to 3/8" mild steel on 11,000 watts
- Only weighs 18lbs
- Will operate on 115V 20A circuit for 1/4" mild steel cutting

Spectrum® 875

- Cuts up to 5/8" mild steel on 11,000 watts
- Cuts up to 7/8" on wall power
- Only weighs 52 lbs
- Utilizes compressed air 6.75 CFM @ 90 psi min

Miller's Adapter Cord Stk #300158 makes it easy to plug your plasma cutter into the generator.

Call your local Pacific Welding location for a demonstration.
