- Complete System Documentation and Curriculum
  - Including operations manuals, maintenance guides, spare parts lists, calibration numbers & serial numbers, prints, and supplier references and specifications
  - Hardcopy binder
  - Electronic manuals and tools
- FANUC Software
  - ArcTool, Through the Arc Seam Tracking (TAST), Touch Sensing, Bump Box, Constant Path, DRC for Arc Plug-In, Automatic Error Recovery with Fast Fault Recovery, Fault & Incident Reporting, Menu Utility, Panel Wizard, Password Protection, Programmable Machine Course, Torch Guard
- Lincoln Software
  - Production Monitoring™ and diagnostics (hardware and software is optional, see below)
- Power
  - 230 V std, 115 Optional
- Power Source & Feeder
  - Power Wave® 355M and AutoDrive™ 4R90
- Robot Arm
  - FANUC ARC Mate 50iC/5L with R30iA Mate controller, color, i-Pendant
- Safety
  - Fully integrated operator safety devices, RIA 15.06-99 compliant
  - Personal protection equipment – handshields
  - Welding consumables – Lincoln Electric consumables
- Training
  - 3 Days – Train the Trainer Program, Cleveland, Ohio
- Vision
  - iR Vision 2D software (hardware is optional)
- Weld Cell Controls
  - Fully integrated operator safety devices including a door safety switch and one hand shield
